Schedule D, Part X, Line 2 - The Organization utilizes the provisions of ASC 740, pertaining to accounting for uncertainty in income taxes. The pronouncement requires the use of a more-likely-than-not recognition criteria before and separate from the measurement of a tax position. An entity shall initially recognize the financial statement effects of a tax position when it is more likely than not, based on the technical merits, that the position will be sustained upon examination. With respect to the organization, this would primarily relate to the determination of unrelated business taxable income and to the maintenance of its tax exempt status. Management has evaluated the adopted policies and procedures that have been implemented to provide assurance that income is properly characterized and activities that jeopardize its tax exempt status are within the limits established under existing tax code and regulations. Management has determined the effects of uncertain tax positions are not material to the Organization for recognition or disclosure in the accompanying financial statements and, accordingly, no income tax liability has been recorded for uncertain tax positions in the accompanying financial statements.
